The Holmes County Library: More Important Than Ever

Prognosticators have sounded the death knell for public libraries for well over a decade now. Truth be told, however, the Holmes County Library and other libraries in general are continuing to thrive at an unprecedented rate. In our community, the library plays an important role in that it provides free services to a myriad of demographic groups characterized by such dynamics as religious belief, economic status, technological savvy and educational capacity. Further, we embrace the role of the library as a center of the community by providing free meeting spaces to area organizations. Our programs reach both young and old, and provide free entertainment via the showing of recent Hollywood movies, book discussion groups, comedy nights, dinner theaters and children's programming that is second to none. Our bookmobiles continue to traverse our county and township roads bringing materials to many of our more rural patrons. And, of course, for those purists out there, the library continues to offer the latest in both fiction and nonfiction titles both in physical and electronic form. So is a public library still vital in Holmes County? The answer to that question is a resounding YES! If you haven't been to the Holmes County Library recently, please stop by and check us out...you'll be glad that you did.
